Post-Graduation Outcomes of the Class of 2015

Makayla Grays and John Nugent Office of Institutional Research and Planning January 2017

This report is divided into three parts. Results of the One-Year-Out survey are presented first. The second part combines information on post-graduation outcomes obtained from the survey (for those who responded) and other sources (for survey nonrespondents). Finally, the appendices present details of graduates' enrollment in degree programs and employment.

ONE-YEAR-OUT SURVEY

Each summer, the Office of Career and Professional Development (OCPD) and the Office of Institutional Research and Planning collaborate to administer an online "one-year-out" survey which attempts to ascertain the activities, particularly employment and graduate school enrollment, of members of the previous year's graduating class. On July 5, 2016, an email was sent to 452 graduates from the Class of 2015 inviting their participation in the One-Year-Out Survey. Of these 452 individuals, 196 (43%) completed at least the first survey question, and 168 (37%) persisted until the end. None of the survey items required—i.e., forced—a response, so there are some missing data.

The survey asked graduates to indicate one primary activity and any number of secondary activities they have engaged in since their May 2015 graduation. Results are presented in Table 1.

between May 2015 (Graduation) and June 2016						
Activity	Percent of respondents who said this was their primary activity ^f	Percent of respondents who said this was their primary <i>or</i> a secondary activity ^g				
Full-time paid employment ^a	69.1	74.0				
Full-time graduate or professional degree program	11.5	14.3				
Part-time paid employment ^b	7.3	19.9				
Public service or volunteer activity ^c	4.2	9.7				
Preparation for graduate school ^d	2.1	23.0				
Unpaid internship	2.1	10.2				
Job search	1.0	26.5				
Additional non-degree coursework	1.0	6.1				
Part-time graduate or professional degree program	1.0	4.1				
Fellowship ^e	0.5	2.0				
Travel	.0	12.8				
Other	.0	3.1				

Table 1. Self-Reported Primary and Secondary Activities between May 2015 (Graduation) and June 2016

^aIncludes paid internships, Teach for America, and similar positions that pay a salary. ^bIncludes freelancing and similar arrangements. ^cIncludes Peace Corps, AmeriCorps VISTA, and similar activities that are either unpaid or pay only a small living allowance/stipend. ^dResearching and applying to programs, studying for entrance exams, etc. ^eIncludes Fulbright and similar positions. ^fPercentages based on 191 respondents. ^gPercentages based on 196 respondents.

Most respondents said that their primary activity since graduation was full-time paid employment. Of course, graduates can be engaged in more than one of the activities listed in Table 1; 56 percent of respondents reported at least one additional, secondary activity. The right column of Table 1 displays the percent of survey respondents who reported each activity as *either* primary or secondary. Because each graduate can be represented in more than one activity, the right column does not sum to 100 percent.

As shown in Table 1, **74 percent of survey respondents said they had experienced some period of fulltime paid employment since graduating**, which implies that 5 percent of graduates had full-time employment during this period but did not consider it their "primary" activity. Roughly one quarter of respondents were engaged in a job search and/or graduate school preparation after graduation, although only a small percentage of graduates regarded either of these as their primary activity. Twenty-four percent of survey respondents were enrolled in some form of education, either a degree program or additional non-degree coursework. Details of the programs and institutions in which graduates enrolled are presented in Appendices A and B.

Respondents who said their primary activity after graduating was full- or part-time employment, a fellowship, service/volunteer work, or an unpaid internship were asked for details and follow-up questions about their primary position. Questions focused on the position's relevance to a graduate's college major(s), perception of how the position relates to his/her career, and how qualified he/she feels for the position. Table 2 shows overall results for respondents.

Question	Response	Percent of respondents
	Yes, directly	42.4
1. Is/was this position	Yes, indirectly	38.8
related to your major(s) at Connecticut College?	No	18.7
at connecticut conege:	Unsure/it's too early to tell	0.0
2. Which of the	A career	23.6
following best	A stepping stone to a career	60.0
describes your view	Just something to get me by for now/at the time	6.4
of this position?	Unsure/it's too early to tell	10.0
	I have/had more qualifications than required (i.e., overqualified)	20.7
3. How qualified	I have/had about the right amount of qualifications	72.1
are/were you for this position?	I have/had only some of the qualifications required (i.e., underqualified)	6.4
	Unsure/it's too early to tell	0.7

Table 2. Perceptions of Primary Position Held after Graduating

Note. Most common response shown in boldface. Percentages based on 139 respondents to question 1, 140 respondents to questions 2 and 3.

Most respondents (81%) said that their primary position after graduation was either directly or indirectly related to their college majors. Most viewed the position either as either a career (24%) or, more commonly, a stepping stone to a career (60%). Most respondents (93%) said that they were either appropriately qualified or over-qualified for their positions.

The survey asked about graduates' expected primary and secondary activities for the next 12 months. Seventy-two percent of respondents said they expected no change in their primary activity, or perhaps change in detail only (e.g., change jobs but remain employed full-time), and 28 percent expected their

primary activity category to change (e.g., from full-time employment to a full-time degree program). Figure 1 shows the differences between respondents' primary activities as reported on the survey in mid-2016 and their expected activities for the year ahead. The largest net change was in the percent of respondents whose primary activity will be full-time enrollment in a degree program, which increased from 12 percent to 21 percent. The percent of respondents whose primary activity will be part-time employment dropped by roughly half.

Expected primary activity from mid-2016 to mid-2017

Primary activity from graduation to mid-2016

Figure 1. Primary activities as reported on the One-Year-Out survey (dark bar) and expected for the next 12 months (light bar).

Figure 2 shows the differences between activities—primary *and* secondary—that respondents reported on the survey in mid-2016 and their expected activities for the year ahead. Of note is the increase in the percent of graduates who will be enrolled in a degree program either full-time (up from 14% to 27%) or part-time (up from 4% to 7%). Fewer respondents anticipate searching for a job in the year ahead (18%) than did in the first year after graduating (27%). Primary or secondary activity from graduation to mid-2016

Expected primary or secondary activity from mid-2016 to mid-2017

Figure 2. Primary and secondary activities as reported on the One-Year-Out survey (dark bar) and expected for the next 12 months (light bar).

The survey asked graduates who searched for a job in the past year to report on the various job search approaches they have used. Results are presented in Table 3. The most commonly used approach was networking, which was also rated highest in terms of usefulness. Volunteering/interning received relatively high ratings in terms of usefulness as well.

Table 3. Job Search Approaches				
Approach	Percent of job seekers who used this approach	Average rating given by those who used this approach 1-not useful, 2-somewhat useful, 3-very useful		
Networking (family, friends, and classmates)	96%	2.63		
Job aggregator websites (e.g., Indeed.com, SimplyHired, Monster, CareerBuilder)	89%	2.10		
LinkedIn (General)	86%	1.89		
Volunteering/interning	73%	2.48		
CC Alumni Directory	61%	1.96		
LinkedIn (CC Networking Group)	52%	1.55		

Note. Percentages based on 42-45 respondents.

SUPPLEMENTING THE ONE-YEAR-OUT SURVEY DATA

Because of the importance of thoroughly documenting our graduates' outcomes and the reality that alumni surveys typically achieve low response rates, we took additional steps to learn more about Class of 2015 graduates. First, we searched for nonrespondents on social media websites (most notably, LinkedIn) attempting to document their educational and/or employment activities since graduating. Overall, we located usable information on what appeared to be current activities for 192 survey nonrespondents. We also queried the National Student Clearinghouse database to identify graduate school enrollments of the survey nonrespondents. Seven graduates who did not complete the survey, and for whom no information was available online, were found to be enrolled in educational institutions as of fall 2016. Finally, we asked the OCPD office staff to provide any information on the remaining students for whom we were unable to locate information. Through this method, *we aimed to produce a snapshot of the graduating class at one moment in time that is as complete and accurate as possible*, recognizing that some of the information will become outdated quickly due to the fluidity of young adults' lives in the initial years after college.

Combining the data from all sources (see Table 4), *we documented the activities of 391 of the 452 members of the Class of 2015, or 87 percent*. This far exceeds what one would hope to achieve from an alumni survey alone, and it exceeds the response rates on which many colleges' published alumni outcomes data are based. Summarizing the outcomes is tricky because many graduates are engaged in more than one activity. For ease of reporting, each graduate is presented as having a *single* outcome, although it should be remembered that this somewhat oversimplifies our graduates' actual activities, which may include a variety of significant secondary activities.

Table 4. Class of 2015 Outcomes and Information Sources

Note. One-Year-Out survey outcomes reflect the primary activity respondents reported for the period between May 2015 (Graduation) and June 2016. NSC database outcomes reflect current enrollments as of fall 2016. Web search outcomes primarily reflect the most recent experience listed on graduates' LinkedIn profiles since mid-2015.

Overall, 79 percent of the Class of 2015 graduates for whom we found outcomes information were employed, and 13 percent were enrolled in a degree program – a total of 92 percent. Another 5

percent had a fellowship or an internship¹, or were working in volunteer and service programs such as AmeriCorps VISTA. Together, then, of the graduates for whom we located information, **over 97 percent were employed, enrolled in a graduate or professional degree program, completing a fellowship or internship, or engaged in public service.**

Details of the degree programs in which Class of 2015 graduates enrolled as a primary activity are presented in Appendix A (sorted by institution) and Appendix B (sorted by major). These tables do not include non-degree coursework, certificate programs, or other enrollments where degree-seeking status was unclear. Appendices C and D present details of graduates' employment, fellowships, internships, and volunteer service by employer and major, respectively. For One-Year-Out Survey respondents, details of the primary activity are shown, which may not reflect graduates' *current* positions. For survey nonrespondents, details reflect graduates' most recent known experience.

¹ Per the recommendation of the OCPD director, unpaid internships are considered a form of employment and thus are included in the overall outcome figure (97%). This is a change from the previous year (Class of 2014) when unpaid internships were included in the "Other" outcome category.

Washington University	Computer Science	BCB
Yale University	Architecture	ARC

Note: Information is not displayed above for survey respondents who declined permission to publish details of their graduate studies.

Most Common Institutions for Class of 2015 Graduates' Enrollment

Institution	Number of graduates enrolled
Cornell University	3
Simmons College	3
Columbia University	2
New York University	2
University of Connecticut	2
University of Pittsburgh	2

Double- and triple-majors are listed n	nore than once.
Institution	Program
AHI – Art History	
Georgetown University	Art and Museum Studies
ANT – Anthropology	
Indiana State University	Recreation Sport Management
University of Sydney	Design, Design and Visual Communications
ARC – Architectural Studies	
New York University	Teaching Art
Yale University	Architecture
ART – Art	
International Business School in Budapest	
BCB – Biochem/Cell/Molecular	
The University of Pittsburgh	Dental Medicine
Tufts University	Medicine
University of Rochester	Pharmacology
Washington University	Computer Science
BNS – Behavioral Neuroscience	
MGH Institute of Health Professions	
Simmons College	Nursing
Simmons College	Nursing
University of Connecticut	Intellectual Property
University of Connecticut	Physiology & Neurobiology
BOT – Botany	
Cornell University	Plant Biology
BSC – Biological Sciences	
Boston University	Health Law, Policy and Management
Brandeis University	Secondary Education
Columbia University	Nursing
Cornell University	Veterinary Medicine
Duke University	Medicine
Quinnipiac University	
University of California Riverside	Genetics, Genomics and Bioinformatics
University of Michigan	Pharmacy
University of Pennsylvania	Veterinary Medicine
CLA – Classics	
Princeton University	Civil Engineering
COM – Computer Science	
University of California Riverside	Genetics, Genomics and Bioinformatics
EAS – East Asian Studies	,
Stanford University	East Asian Studies
ECH – Environmental Chemistry	
State University of New York College of Environmental Science and	
Forestry	
ECO – Economics	
CUNY Brooklyn College	
Fordham University	Law
International Business School in Budapest	
New York University	Education and Social Policy
Plymouth State University	MBA
The College of William and Mary	MBA
The concee of william and wary	

Appendix B. Class of 2015 Graduates' Enrollment in Degree Programs, by Connecticut College Major

CUNY Brooklyn College	
Fordham University	Law
International Business School in Budapest	2011
ENL – English	
Cornell University	Law
Northeastern University	Law
Simmons College	Library Science
GIS – Global Islamic Studies	
University of Glasgow	Human Rights & International Politics
GOV – Government	Haman Aights & International Fonties
Fordham University	Law
GWS – Gender and Women's Studies	2000
University of Florida	Center for Latin American Studies
